*Number for Colorado

Community energy

Customer counts

Residential customers		Business customers	
Electric	Gas	Electric	Gas
43,063	42,941	3,311	1,539

In 2016, Thornton made up:

- 3% of electric customers
- 3% of gas customers in Xcel Energy Colorado.

See how your community uses energy and participates in energy savings options in Xcel Energy's community energy reports at xcelenergy.com/partners/municipalities.

Environmental commitment

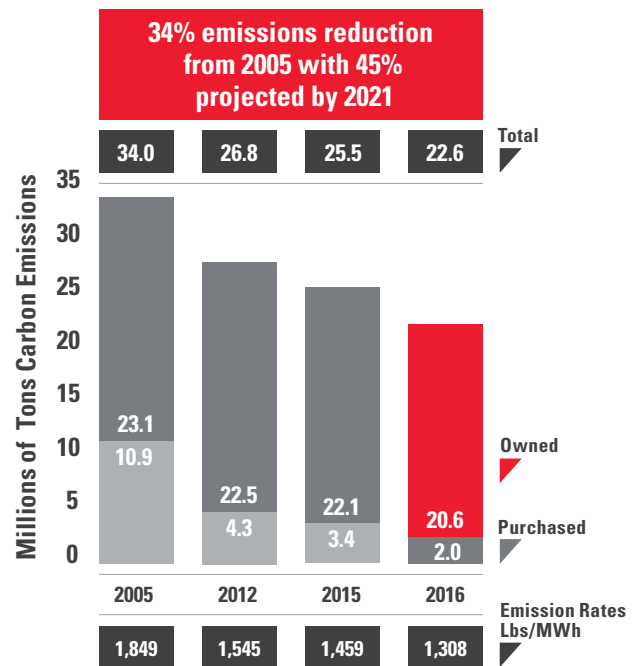

Energy efficiency

Xcel Energy's energy efficiency programs provide customers with choices to help them meet their individual needs and preferences. Not only can customers save money by improving efficiency, but these projects also support the environment. Popular residential programs include lighting, heating and cooling, refrigerator recycling and the Home Energy Squad. Popular business programs include energy audits and lighting equipment rebates. xcelenergy.com/programs_and_rebates

Partners in Energy

More communities are realizing energy planning plays a critical role in helping them reach their goals. Our Partners in Energy program provides communities in Colorado free services to develop an energy plan and assistance with implementing that plan. Partners in Energy tailors its services to complement each community's vision.

Operational excellence

Reliability

In 2016, Xcel Energy customers on average had electricity service 99.9 percent of the time. When a major storm hits, we are prepared to respond swiftly and effectively to restore power, as has been demonstrated time and again. Xcel Energy's system reliability results consistently rank near the top one-third of U.S. electric utilities.

Maintaining a diverse mix of energy resources

Colorado 2016 electricity supply by energy source
